

**RFQ#17-014-25 - Pick Up Truck with Lift Gate**  
**Addendum #1, posted 3/28/17**

- 1) Ford no longer has a dark green available, would another color work for you?

Silver or light gray would be acceptable.

- 2) You had asked for a "regular cab with four doors and foldable rear seat", could you explain that for me? My question is did you mean a full crew cab, or something like the old regular cab cabs that had 4 doors with a half seat in the back?

The RFQ should have said regular cab. We are looking for a 2-door regular cab truck.

- 3) The next question would be back up alarm. I'm assuming the external beeping alarm, am I correct?

Yes

- 4) For the V-plow and Lift Gate, is there a business you prefer to deal with or is this open?

This is open and you can use any business you wish.

- 5) Lastly for the V-plow is there any special requirements (size, wirings, plow material, etc.)?

The plow would be 8'6" and include all wiring, shoes, lighting, etc. needed for the plow to be fully functional once Marinette County receives it.

- 5) Is request a Reg ¾ Ton Pickup, but further in your specs you are asking for 4 doors and foldable back seat, do you want an ext. cab?

The truck should be a regular cab. Not an extended cab.

- 6) On plow quote, what size plow 8'6" or 9'2" and do you prefer any specific make?

The plow should be 8'6".
